[contrast stretching in image
processing using matlab](#) Jan 19
2022 web 10 02 2019 contrast
stretching is also known as
normalization it is a simple
image enhancement technique
the quality of image is
enhanced by stretching the
range of intensity values to
perform the stretching we have
to specify the upper and lower
pixel value limits over which
the image is about to be
normalized let s say a is
