Videoland Nov 05 2020 Videoland offers a comprehensive view of the "tangible phase" of consumer video, when Americans largely accessed movies as material commodities at video rental stores. Video stores served as a vital locus of movie culture from the early 1980s until the early 2000s, changing the way Americans socialized around movies and collectively made movies meaningful. When films became tangible as magnetic tapes and plastic discs, movie culture flowed out from the theater and the living room, entered the public retail space, and became conflated with shopping and salesmanship. In this process, video stores served as a crucial embodiment of movie culture's historical move toward increased flexibility, adaptability, and customization. In addition to charting the historical rise and fall of the

rental industry, Herbert explores the architectural design of video stores, the social dynamics of retail encounters, the video distribution industry, the proliferation of video recommendation guides, and the often surprising persistence of the video store as an adaptable social space of consumer culture. Drawing on ethnographic fieldwork, cultural geography, and archival research, Videoland provides a wide-ranging exploration of the pivotal role video stores played in the history of motion pictures, and is a must-read for students and scholars of media history.

*Help! There's a Liberal in the Corner Office.* Feb 26 2020 Yeah...it's true. It's pretty darned hard to be a principled conservative in today's corporate world. In fact, it more or less can get you fired. In nearly 20

years seeking the "perfect-storm" of merit, principle, dedication, faith, fact, truth, right-is-good-and-wrong-is-just-wrong governed by general honesty in the modern day Corporate America I am sorry to break it to you; it just doesn't exist. This book will chronicle real events that have happened in Corporate America; the good, the bad, the downright shocking and frankly the very frightening state of affairs of what the "Everybody-Gets-A-Ribbon" liberal movement and the Political Correctness nonsense have done to business. If you wanted to get work done, promote someone, fire someone, move someone, pray for someone, expose someone and generally cut through the office political goo in the Corporate environment consider yourself forewarned that the rules of the game have changed.dramatically. Kathleen Kelly is a 20-year veteran of the corporate circus holding down very senior and not-so-senior roles at some of the nation's biggest companies (and some of the smallest, never-heard-of, probably-out-of-business-by-now companies too). Born and raised on the east coast, Kelly spends much of her time ducking "emotional, feel-good grenades" hurled by liberal counterparts and spends free time "building consensus" in target practice at the gun range by working on her groupings. She is proud of her plebian "State University Degree" and has sworn to never utter "B-school" in conversation again. The self-described "political freak" and her equally armed spouse live in a great city in the greatest country in the world raising two future "Evil Republicans" who will no doubt skip the corporate circus and follow their parents into Entrepreneurship. In her spare time Kelly is a busy writer, political mouthpiece, and speeding-ticket-collector along with cooking up some legendary desserts.

**Behavior Analytics in Retail** Jun 12 2021 What is the value of a bricks-and-mortar store? As retailers move to a multichannel world where the winners must overcome the challenges of pricing transparency, personalized marketing, and supply chain controls, most sales still occur in the physical site. Behavior Analytics is the science of studying the behavior of people. Schedule to Demand is a subset of Behavior Analytics, a method that correlates between traffic, sales and labor data, in order to optimize the productivity of employees and position them where they matter most. In Behavior Analytics for Retail, we will introduce the core metrics of Schedule to Demand; design the requirements for a Customer Service Model of the store, inside the store, and at the checkout; present technology options and accuracy requirements; and offer insights through case studies. Regardless of how the future will shape retail, the physical store will continue to exist, and thrive. We propose a framework for retailers, and others, on how to optimize store operations and profitability, and enhance the shopping experience by measuring, monitoring and predicting the behavior of employees and customers.

**Transnational LGBT Activism** Mar 29 2020 The International Gay and Lesbian Human Rights Commission (IGLHRC) was founded in 1990 as the first NGO devoted to advancing LGBT human rights worldwide. How, this book asks, is that mission translated into practice? What do transnational LGBT human rights advocates do on a day-to-day basis and for whom? Understanding LGBT human rights claims is impossible, Ryan R. Thoreson contends, without knowing the answers to these questions. In *Transnational LGBT Activism*, Thoreson argues that the idea of LGBT human rights is not predetermined but instead is defined by international activists who establish what and who qualifies for protection. He shows how IGLHRC formed and evolved, who is engaged in this work, how they conceptualize LGBT human rights, and how they have institutionalized their views at the United Nations and elsewhere. After a full year of in-depth research in New York City and Cape Town, South Africa, Thoreson is able to reconstruct IGLHRC's early campaigns and highlight decisive shifts in the organization's work from its founding to the present day. Using a number of high-profile campaigns for illustration, he offers insight into why activists have framed particular demands in specific ways and how intergovernmental advocacy shapes the claims that activists ultimately make. The result is a uniquely balanced, empirical response to previous impressionistic and reductive critiques of Western human rights activists—and a clarifying perspective on the nature and practice of global human rights advocacy.
