regression testing wikipedia
Apr 19 2022 regression testing

rarely non regression testing is
re running functional and non
functional tests to ensure that
previously developed and
tested software still performs
as expected after a change if
not that would be called a
regression changes that may
require regression testing

include bug fixes software enhancements configuration changes and even substitution of [open computer science de gruyter](#) Mar 18 2022 16 04 2011 special issues special issue on advanced aspects of machine learning algorithms for scientific programming guest editors fazlullah khan abdul wali khan university mardan pakistan syed tauhidullah shah university of calgary canada nabeela awan nagaoka university of technology japan deadline for submissions december 31 **dblp software testing and analysis** Sep 24 2022 vor 2 tagen proceedings of the 2008 workshop on testing analysis
